

ITERU

INTELLIGENCE

ENGINEER. AUTOMATE. DOMINATE.

At ITERU INTELLIGENCE we build comprehensive smart systems that transform complex and routine tasks into self-driving operations. By blending the power of Artificial Intelligence with custom high-end front-end dashboards we deliver tailored technical solutions that reflect your brand identity and maximize your team's productivity.

Sectors We Serve

We provide flexible scalable and highly customized solutions tailored to the precise needs of various work environments:

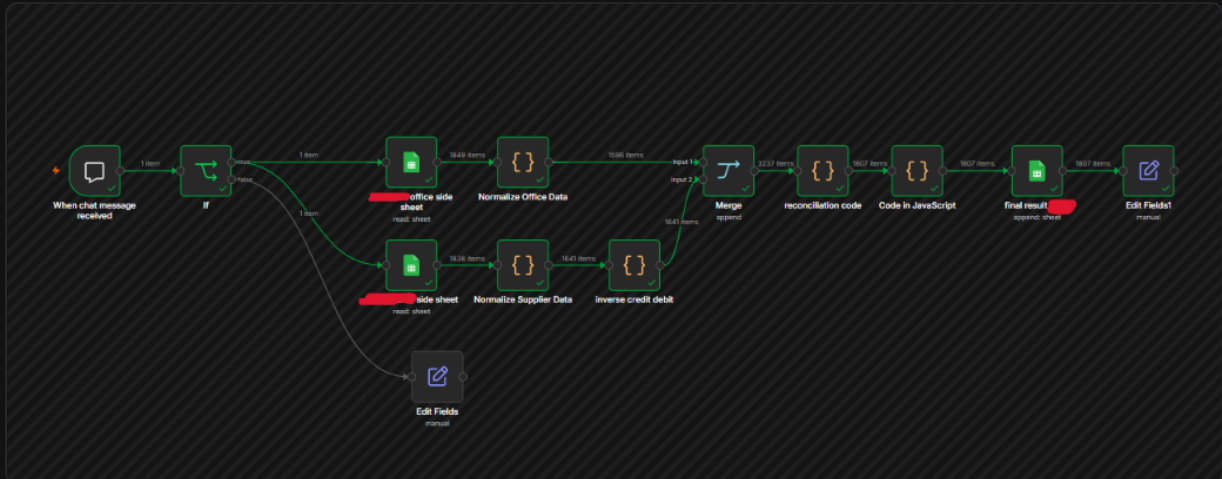

- **E-commerce Platforms:** Automating store operations inventory management and intelligent customer service.
- **Agencies & Offices:** Tailored solutions for travel agencies consulting firms and offices relying heavily on data processing and rapid client communication.
- **Corporate & Industrial:** Eliminating wasted hours on routine Excel tasks financial reconciliations and administrative workflows.

Featured Solutions & Use Cases

Data Reconciliation Agent

Saves 14+ hours/week

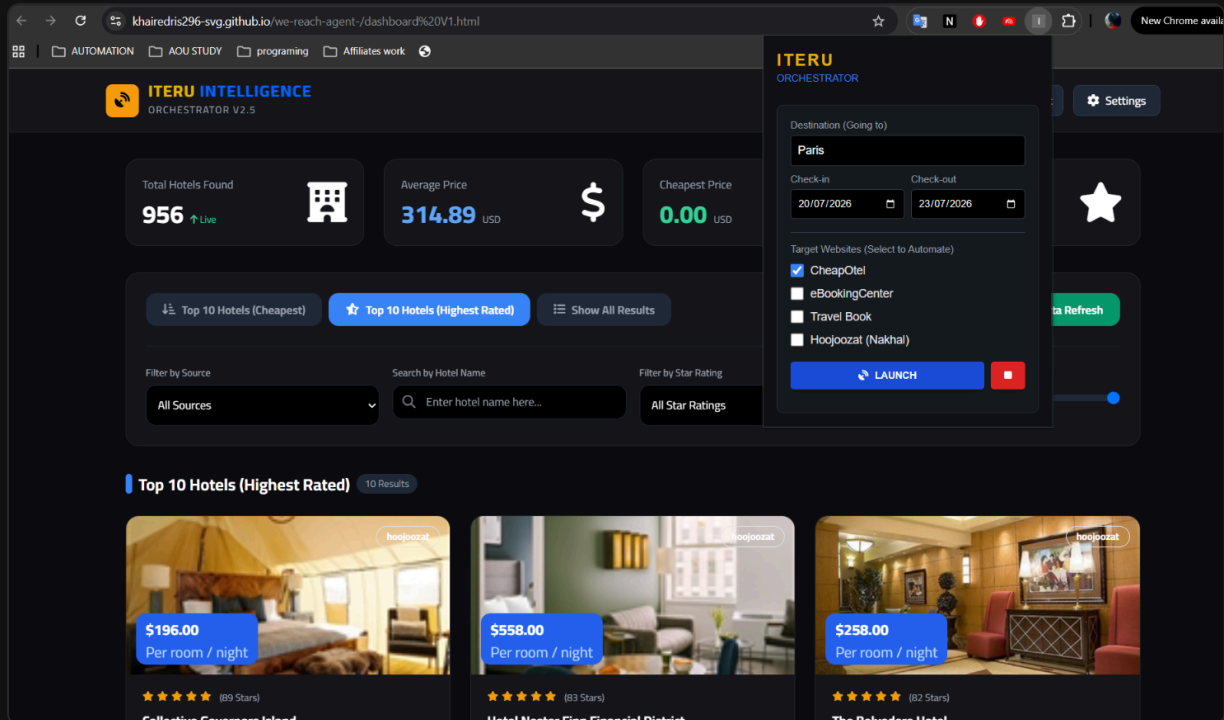

An intelligent system that instantly matches and reconciles thousands of complex data records across different platforms. It eliminates human error and frees up employees to focus on strategic tasks rather than exhausting manual labor.

Data Scraping & Analysis System

Saves 15+ hours/week

A smart agent that extracts and processes data from multiple sources like scraping hotel data from 10+ different websites. The system filters analyzes and displays the structured data on a custom-built dashboard allowing staff to compare prices and specifications effortlessly to make the best decisions.

Internal SLA & Response Monitor (AI Admin)

Ensures 100% Client Response Rate

An internal AI monitoring agent designed to oversee staff-client communications. It tracks response times and automatically sends escalating alerts to employees if a customer is left waiting past a specific timeframe. Once a reply is sent the AI logs the interaction and halts the alerts to ensure zero dropped leads and premium customer satisfaction.

Customer Service AI Chatbot

24/7 Instant Response

An advanced AI chatbot tailored for mobile phones accessories and electronics stores. It goes beyond answering repetitive company policy questions by analyzing customer requirements and proactively recommending available products. This allows it to act as a professional digital sales representative.

How We Work

1. Discovery & Customization

We analyze your routine tasks and bottlenecks to build a 100% customized solution that integrates flawlessly with your workflow.

2. Software Engineering & AI

We utilize the latest AI technologies to build robust systems alongside developing custom front-end interfaces that match your brand.

3. Deployment & Maintenance

We ensure secure deployment on cloud servers (Cloud/Docker) to guarantee absolute stability and zero downtime.
